## Item 4 Advisory Business

Pure Financial Advisors, Inc. (PURE) was established on March 21st, 2007 to provide strategic financial planning and asset management for mid to high net worth clients. PURE's mission is to help clients of all financial profiles achieve maximum net after-tax purchasing power relative to their own unique and changing lifetime financial goals.

PURE's vision is to serve our client's interests by bringing experienced and credentialed financial advisors together within a scalable business model that is designed to promote transparency, adhere to academic standards for financial planning and asset management while reducing conflicts of interest.

PURE's financial planners who are assigned to develop and recommend financial strategies to the client are salaried-only employees of PURE acting as the client's fiduciary. They are prohibited from benefiting financially by product commissions, production bonuses, or any other form of sales oriented compensation that may create a conflict of interest.

At a minimum, PURE's financial planners are required to be a CERTIFIED FINANCIAL PLANNER™ (CFP), Certified Public Accountant (CPA), or Chartered Financial Analyst (CFA) Charter holder with at least five years of financial planning experience. Within one year of hire, we require that financial planners attain the Accredited Investment Fiduciary (AIF®) credential to show a commitment to the fiduciary standard.

PURE FINANCIAL ADVISORS, INC's principal place of business is:

3131 Camino Del Rio North, Suite 1550  
San Diego, CA 92108

Branch office location(s)

2010 Main Street, Suite 920  
Irvine, CA 92614

15233 Ventura Blvd. 5<sup>th</sup> Floor  
Sherman Oaks CA 91403

135 S. State College Blvd., Suite 200  
Brea, CA 92821

Listed below are the firm's principal shareholders. (Those individuals and/or entities controlling 25% or more of this company)

- Michael Fenison, CFP®, RFC, AIF®

Founder and CEO

PURE follows a process of educating the client, evaluating client goals and resources and then developing appropriate strategies to meet client goals. We offer assistance with implementing and monitoring client strategies to assess effectiveness towards achieving current and future client goals.

Pure Financial Advisors, Inc. offers the following advisory services to our clients:

## **FINANCIAL PLANNING**

We provide financial planning services. Financial planning can be a limited engagement to assess, review or make recommendations on a specific issue. Financial planning can also be a comprehensive evaluation process in which numerous strategic recommendations are given. These recommendations may be applicable to the client's current and/or assumed future financial state. Variables based on the client's situation as well as historical and current market conditions may be used to project estimates of future cash flows, asset values and withdrawal strategies. Throughout the financial planning process, relevant client information and projections are considered.

The forecasted impact of this information is then analyzed over the client's expected life. Financial planning is also offered as a continuous engagement of planning review, strategic adjustments and implementation. In general, the financial planning services can address any of the following areas:

**PERSONAL:** We review family records, budgeting, personal liability, estate information and financial goals.

**TAX PLANNING:** exemptions, estate issues and current tax law to identify opportunities for reducing current and future tax liabilities. We review the client's current tax situations including income, investments, deductions, exemptions, estate issues and current tax law

**CASH FLOW:** We analyze the client's current and future cash flow needs. We then illustrate the possible impact of various tax strategies and investment decisions on the client's future ability to create the income desired.

**INVESTMENTS:** We analyze the client's current investment resources to determine how they might align with the client's objectives. During this analysis we review the tax efficiency, fees and expenses, diversification, risk and investment performance.

**RISK MANAGEMENT:** We review potential threats to the client's financial well-being from unexpected circumstances and then propose strategies to manage risks. We analyze existing insurance policies to assess recommended coverage for life, health, disability, long-term care, liability, home and automobile.

**ESTATE PLANNING:** We assist the client in assessing and developing long-term strategies, including as appropriate; living trusts, wills, estate tax strategies, powers of attorney, asset protection plans, long-term care and Medicaid.

We gather required information through in-depth personal interviews. Information gathered includes the client's current financial status, tax status, future goals, return objectives and attitudes towards risk. We carefully review documents supplied by the client, including a questionnaire completed by the client, and we then prepare recommendations.

Should the client implement the plan recommendations, we suggest the client work closely with his/her attorney, accountant, insurance agent, and/or investment advisor. Implementation of financial plan recommendations is entirely at the client's discretion.

We also provide general non-securities advice on topics that may include tax and budgetary planning, estate planning and business planning.

Typically, the financial plan recommendations are presented to the client within six weeks of the contract date, provided that all information needed to prepare the financial plan has been promptly provided.

## **INVESTMENT SUPERVISORY SERVICES ("ISS") INDIVIDUAL PORTFOLIO MANAGEMENT**

Our firm provides continuous advice to clients regarding the investment of client funds based on the individual needs of the client. Through a financial planning process that includes personal discussions in which goals and objectives based on a client's particular circumstances are established, we develop a client's personal investment policy to manage a portfolio based on that policy. During our data-gathering process, we determine the client's individual objectives, time horizons, risk tolerance, and liquidity needs. As appropriate, we also review and discuss a client's prior investment history, as well as family composition and background. Individual portfolio management services are typically provided only for fixed income portfolios or to accommodate existing client assets during a limited transition period when transition to a PURE model portfolio could create short term adverse tax consequences.

Our recommendations are not limited to any specific investment offered by a custodian or fund family and will generally include advice regarding the following securities:

Exchange-listed securities	Corporate Debt
Municipal Debt	Mutual Funds
Government securities	Options
Real estate	Oil and Gas

Because some types of investments involve certain additional degrees of risk, they will only be implemented/recommended when consistent with the client's stated investment objectives, tolerance for risk, liquidity and suitability.

## **INVESTMENT SUPERVISORY SERVICES ("ISS") MODEL PORTFOLIO MANAGEMENT**

Our firm provides portfolio management services to clients using model asset allocation portfolios. Each model portfolio is designed to meet a particular investment profile in terms of risk and expected return over specific time horizons.

PURE has several model portfolios designed to meet specific risk and expected return profiles. These model portfolios have equity exposure from 0% to 100% and can be structured with a combination of ETFs, no-load index funds and/or institutional class mutual fund shares. Generally, portfolios are globally diversified to control the risk associated with traditional markets.

We manage these advisory accounts on a discretionary basis. Model selection and account supervision is guided by the client's cash flow needs, risk tolerance, stated objectives (i.e., maximum capital appreciation, growth, income, or growth and income), as well as tax planning considerations.

We can also manage several accounts of differing account tax structures within a single portfolio allocation model to create a tax profile designed to increase tax efficiency.

Through our financial planning process, we include personal discussions with the client in which the client's goals and objectives are established and identified in the client Investment Policy Statement. We determine if a model portfolio is suitable to the client's circumstances. Once we determine the suitability of a model portfolio, the portfolio is managed based on the portfolio's goal, rather than on each client's individual needs. Clients retain individual ownership of all accounts and securities.

Our recommendations are not limited to any specific investment offered by a custodian or fund family and will generally include advice regarding the following securities:

Exchange-listed securities	Mutual fund shares
----------------------------	--------------------

To ensure that our initial determination of an appropriate portfolio remains suitable and that the account continues to be managed in a manner consistent with the client's financial circumstances, we will:

1. Require that each Model Portfolio Management Services client engage in a process of continuous financial planning and plan implementation with PURE. Exceptions can be made for pre-existing assets and related households.
2. We match portfolio trade requests to the client's current investment policy statement.
3. Each client account utilizing a model portfolio is reviewed daily to assure that the model and individual assets of the model portfolio are within specified model tolerances.
4. During periodic plan reviews we request any updated information regarding changes in the client's financial situation and investment objectives.
5. We are available to consult with the client regarding any changes that could affect the appropriateness of a portfolio model.
6. We maintain client suitability information in each client's records.

### **PENSION CONSULTING SERVICES**

We provide Pension Consulting Services separately or in combination. While the primary clients for these services will be pension, profit sharing and 401(k) plans, we offer these services, where appropriate, to corporations, individuals and trusts, estates and charitable organizations. Pension Consulting Services are comprised of four distinct services. Clients may choose to use any or all of these services.

#### *Investment Policy Statement Preparation (hereinafter referred to as "IPS"):*

We will meet with the client (in person or over the telephone) to determine an appropriate investment strategy that reflects the plan sponsor's stated investment objectives for management of the overall plan. Our firm then prepares a written IPS detailing those needs and goals, including an encompassing policy under which these goals are to be achieved. The IPS also lists the criteria for selection of investment vehicles as well as the procedures and timing interval for monitoring of investment performance.

#### *Selection of Investment Vehicles:*

We assist plan sponsors in constructing appropriate asset allocation models. We will then review various mutual funds (both index and managed) to determine which investments are appropriate to implement the client's IPS. The number of investments to be recommended will be determined by the client, based on the IPS.

#### *Monitoring of Investment Performance:*

We monitor client investments continually, based on the procedures and timing intervals delineated in the Investment Policy Statement. We supervise the client's portfolio and will make recommendations to the client as market factors and the client's needs dictate.

#### *Employee Communications:*

For pension, profit sharing and 401(k) plan clients with individual plan participants exercising control over assets in their own account ("self-directed plans"), we may also provide annual educational support and investment workshops designed for the plan participants. The nature of the topics to be covered will be determined by us and the client under the guidelines established in ERISA Section 404(c). The educational support and investment workshops will NOT provide plan participants with individualized, tailored investment advice or individualized, tailored asset allocation recommendations.

### **AMOUNT OF MANAGED ASSETS**

As of March, 28th, 2018, PURE was managing \$2,016,932,708 of clients' assets. Assets of \$1,993,173,447 are managed on a discretionary basis plus \$23,759,261 of clients' assets managed on a non-discretionary basis.

## Item 5 Fees and Compensation

### FEES AND EXPENSES

PURE charges fees for advisory services such as financial planning and asset management. Limited term financial planning service fees such as the "Foundation Financial Plan" are calculated on a flat fee basis and quoted in advance. **If Pure Financial Advisors, Inc. is managing client's assets, continuous financial planning and plan implementation is included in the asset management fee.** Asset management fees are based on the ending quarterly gross value of the asset accounts that are managed by PURE. Additional details of these fee arrangements follow:

### FOUNDATION FINANCIAL PLANNING FEES

Pure Financial Advisors, Inc.'s financial planning fees are determined based on the level of the services being provided and the complexity of each client's circumstances, typically ranging from \$2,500.00 to over \$10,000.00. All financial planning fees are agreed upon prior to entering into a contract with a client. All financial planning services contracts may be terminated by a written notice within five days of contract signing with a full refund. Contracts terminating by written notice after five days of contract signing will receive a refund for payments received adjusted for work performed at the standard \$275.00 per hour rate for planning time actually spent. Advance payment will never exceed \$1,200.00 for work that will not be completed within six months.

### LIMITED ENGAGEMENTS

We offer a complimentary, no obligation limited engagement financial planning service known as a "Financial Assessment". Targeted specific engagements such as a "Second Opinion" regarding a financial situation, financial product or broker recommendation are offered for a flat fee and typically range from a minimum of \$395.00 to over \$3,000.00. The scope of service and fee are agreed to in advance, identified in a limited engagement contract and paid in advance. Fees for limited engagement contracts may be used as a credit toward a Foundation Financial Plan within one month of the completed limited engagement contract.

### CONTINUOUS FINANCIAL PLANNING AND PLAN IMPLEMENTATION

When PURE implements and maintains a Foundation Financial Plan, and manages assets directed by the Foundation Plan, the asset management fee will include continuous financial planning and plan implementation advisory services. A Foundation Financial Plan is required as a prerequisite to this service. Exceptions can be made for pre-existing assets and related households.

### INVESTMENT SUPERVISORY SERVICES INDIVIDUAL PORTFOLIO MANAGEMENT or MODEL PORTFOLIO MANAGEMENT FEES

Our fees for Model Portfolio Management Services and Individual Portfolio Management are based upon a percentage of assets under management and generally range from .40% to 1.60% annually depending on the total quarterly ending gross value of the client's managed accounts.

Asset management fees are deducted quarterly in advance from client investment accounts. Billable account values are calculated on the last business day of the calendar quarter. The asset management fee for the initial partial calendar quarter on capital inflows and outflows exceeding \$100.00 will be prorated and billed on the next quarterly billing. In addition, any future capital inflows and outflows exceeding \$100.00 will be prorated and increase or reduce fees due on the next quarterly billing. Either party may terminate the advisory contract for asset

management at any time without cause by proving the other party notice in writing. Fees will be prorated to the date that written notification of contract termination is received or sent by us. We will refund the unearned portion of pre-paid asset management fees to the client.

The annualized fee for Individual or Model Portfolio Management Services will be charged as a percentage of assets under management, according to the following schedule:

**FEE SCHEDULE**

<u>Assets Under Management</u>		<u>Progressive Annual Fee</u>		
Pure Level I	\$0	to	\$350,000	1.60% annually
Pure Level II	\$350,001	to	\$500,000	1.25% annually
Pure Level III	\$500,001	to	\$650,000	1.00% annually
Pure Level IV	\$650,001	to	\$800,000	.80% annually
Pure Level V	\$800,001	to	\$1,100,000	.70% annually
Pure Level VI	\$1,100,001	to	\$2,000,000	.60% annually
Pure Level VII	\$2,000,001	to	\$10,000,000	.50% annually
Pure Level VIII	\$10,000,001	to	and higher	.40% annually

The minimum quarterly fee is \$750.00

**Example:**

If Pure is managing \$1,200,000 of assets for Client’s household, \$350,000 @ 1.60% plus \$150,000 @1.25%, plus \$150,000 @ 1.00%, plus \$150,000 @ .80%, plus \$300,000 @ .70%, plus \$100,000 @ .60 the total fee would equal an annualized 1.07%. The current fee of ~ .27% (1.07 x .25) would be billed for the following quarter.

**PENSION CONSULTING FEES**

Our fees for Pension Consulting Services are the same as the financial planning fees or limited engagements as previously described under FOUNDATION FINANCIAL PLANNING FEES and LIMITED ENGAGEMENTS

PURE reserves the discretion to reduce or waive the hourly fee and/or the minimum fixed fee if a Pension Consulting client chooses to engage us for our INVESTMENT SUPERVISORY SERVICES, INDIVIDUAL PORTFOLIO MANAGEMENT or MODEL PORTFOLIO MANAGEMENT.

**GENERAL INFORMATION**

**Termination of the Advisory Relationship:** A client agreement may be canceled at any time, by either party, for any reason upon receipt of written notice. As disclosed above, certain fees are paid in advance of services provided. Upon termination of any account, any prepaid, unearned fees will be promptly refunded. In calculating a client’s reimbursement of fees, we will pro rate the reimbursement according to the number of days remaining in the billing period.

### **Limited Billing Exceptions**

On a client-by-client basis, Pure Financial can use discretion to deviate from the aforementioned fee schedule and minimum quarterly fee. This is generally only available to associated persons, special situations, and related households. Discounts of any type are not generally available to our advisory clients.

**Mutual Fund Fees:** All fees paid to Pure Financial Advisors, Inc. for investment advisory services are separate and distinct from the fees and expenses charged by mutual funds and/or ETFs to their shareholders. These fees and expenses are described in each fund's prospectus. These fees will generally include a management fee, other fund expenses, and a possible distribution fee. If the fund also imposes sales charges, a client may pay an initial or deferred sales charge (it is PURE's policy to not use funds that impose a sales charge). A client could invest in a mutual fund directly (institutional mutual funds are not directly available to individual investors), without our services. In that case, the client would not receive the services provided by our firm which are designed, among other things, to assist the client in determining which mutual fund or funds are most appropriate to each client's financial condition and objectives. Accordingly, the client should review both the fees charged by the funds and our fees to fully understand the total amount of fees to be paid by the client and to thereby evaluate the advisory services being provided.

**Additional Fees and Expenses:** In addition to our advisory fees, clients are also responsible for the fees and expenses charged by custodians including, but not limited to, any transaction charges imposed by a broker dealer with which an independent investment manager effects transactions for the client's account(s). Please refer to the "Brokerage Practices" section (Item 12) of this Form ADV for additional information.

**ERISA Accounts:** Pure Financial Advisors, Inc. is deemed to be a fiduciary to advisory clients that are employee benefit plans or individual retirement accounts (IRAs) pursuant to the Employee Retirement Income and Securities Act ("ERISA"). As such, our firm is subject to specific duties and obligations under ERISA and the Internal Revenue Code that include among other things, restrictions concerning certain forms of compensation. To avoid engaging in prohibited transactions, Pure Financial Advisors, Inc. may only charge fees for investment advice about products for which our firm and/or our related persons do not receive any commissions or 12b-1 fees. In instances where a qualified retirement plan will not allow for direct deduction of advisory fees; deduction can be made from the client's non-qualified brokerage account with Pure Financial Advisors, Inc.

**Advisory Fees in General:** Clients should note that similar advisory services may (or may not) be available from other registered (or unregistered) investment advisers for similar or lower fees. Additionally, our legacy clients may be on different prior fee schedules.

**Limited Prepayment of Fees:** Under no circumstances do we require or solicit payment of fees in excess of \$1,200.00 more than six months in advance of services rendered.

## **Item 6 Performance-Based Fees and Side-By-Side Management**

Pure Financial Advisors, Inc. does not charge performance-based fees (fees based on a share of capital gains or capital appreciation of the assets of a client).

## **Item 7 Types of Clients**

Pure Financial Advisors, Inc. provides advisory services to the following types of clients:

- Individuals (other than high net worth individuals)

- High net worth individuals
- Pension and profit sharing plans (other than plan participants)

Pure does not have a minimum asset requirement to become a client.

<b>Item 8</b>	<b>Methods of Analysis, Investment Strategies and Risk of Loss</b>
---------------	--

PURE uses several methods of analysis as well as research produced by other firms and academics. Some of the methods of analysis used both by us and our research sources are modern portfolio theory, asset correlation and academic based financial research. All research and analysis techniques are an attempt to look for persistent historical patterns that can be used to guide current decisions. We continually evaluate our investment strategies against the most current research data available to us as we work to improve our portfolios and financial strategies. Historical guidance is helpful but historical technical patterns are not guaranteed to repeat. The future is not predictable and therefore clients must be prepared to bear the risk of loss that is present with any investment strategy.

PURE utilizes several significant strategies in an effort to affect the net investment results of our portfolios. Our primary investment objective is to produce an acceptable level of after tax purchasing power relative to our client's unique lifetime financial goals. We use strategies that are designed to diversify investment risk, manage portfolio volatility, manage performance risk over time, manage erosion from taxes, manage erosion from expenses and manage sustainable income distributions. We use a planning process to identify the specific strategies that are most appropriate for each client. Our available strategies include the following:

#### ASSET DIVERSIFICATION STRATEGY

We use portfolios that spread investment risk over multiple asset classes. We utilize classes such as domestic equities, international equities, domestic fixed income, international fixed income and several alternative asset classes as well as sub-sets of these broad asset classes.

#### ASSET CLASS DIVERSIFICATION STRATEGY

Rather than rely on unproven methods of individual security selection, we choose to broadly diversify each asset class in our portfolios across the broad market represented by the asset class.

#### ASSET ALLOCATION STRATEGY

Asset allocation is constructing portfolios with different asset classes that have a history of differing and partially offsetting volatility patterns. If the asset classes are combined in efficient proportions, the overall portfolio volatility may be reduced relative to the expected return.

#### TOLERANCE BASED REBALANCING STRATEGY

All individual portfolio assets are checked against the allocation model daily. If an individual asset within a portfolio is out of tolerance, the asset is manually reviewed for an opportunity to rebalance the portfolio.

#### ASSET LOCATION STRATEGY

To manage the net after tax total return over time, we can unify multiple accounts of differing tax structures and manage them under one portfolio model. By matching the individual asset tax characteristics with a complementary

account type from a tax perspective, net after tax returns may be improved. As a simplified example; if the portfolio model is 50% bonds and 50% stocks, then the bonds may be placed in an IRA because the bond interest is taxed as ordinary income and IRA distributions are also taxed as ordinary income. The stocks may be placed in a taxable account (i.e. Trust, Individual) because stock gains may be taxed at lower long-term capital gains tax rates when in a taxable account, as opposed to the higher ordinary income tax rates those gains would be subject to if the stocks were held in an IRA. Additionally, if a Roth account is present we will attempt to direct assets with high expected returns (i.e. stocks) because the nature of a Roth account means that future gains will accumulate and be distributed free of taxes. We have created an asset ranked tax grouping system to direct assets to an appropriate tax structure and to rebalance the overall portfolio model across multiple tax structures.

#### INSTITUTIONAL CLASS ASSETS

In an effort to control investment expenses and fees, we look for and use low cost institutional solutions whenever we identify institutional investment strategies appropriate for our portfolios.

#### INCOME MANAGEMENT STRATEGY

Current research indicates that certain individual factors may have a positive impact on maximizing the amount and duration of sustainable portfolio income distributions. We review and consider each of the following independent strategies to establish individual client income strategy recommendations.

- Adding asset classes tends to increase sustainable withdrawal rates.
- Certain asset ratios (equities vs. fixed income) tend to increase sustainable withdrawal rates.
- Tax efficient asset management tends to increase sustainable withdrawal rate.
- Laddering income from segmented portfolio pools tends to buffer return sequence risk.
- Rules based withdrawal adjustments tend to allow for higher starting withdrawal rates.

Our retirement income management strategies incorporate some or all of these research findings to create a customized client retirement income investment strategy.

#### RISKS FOR ALL FORMS OF ANALYSIS

Our securities analysis methods rely on the assumption that the companies whose securities we purchase and sell, the rating agencies that review these securities, and other publicly- available sources of information about these securities, are providing accurate and unbiased data. While we are alert to indications that data may be incorrect, there is always a risk that our analysis may be compromised by inaccurate or misleading information. Investing in securities involves a risk of loss that you, as a client, should be prepared to bear.

<b>Item 9    Disciplinary Information</b>
---

We are required to disclose any legal or disciplinary events that are material to a client's or prospective client's evaluation of our advisory business or the integrity of our management.

**Our firm and our management personnel have no reportable disciplinary events to disclose.**

## **Item 10 Other Financial Industry Activities and Affiliations**

Our financial planners teach adult education programs with a focus on retirement planning and investing. These classes are typically held at colleges and universities and may be part of the regular adult education class curriculum. Our planners may be required to register with the college as adjunct faculty and receive compensation for teaching the class.

Clients should be aware that the receipt of additional compensation by Pure Financial Advisors, Inc. and its management persons or employees creates a conflict of interest that may impair the objectivity of our firm and these individuals when making advisory recommendations. Pure Financial Advisors, Inc. attempts at all times to put the interest of its clients first as part of our fiduciary duty as a registered investment adviser; we take the following steps to address this conflict:

- we disclose to clients the existence of all material conflicts of interest, including the potential for our firm and our employees to earn compensation from advisory clients in addition to our firm's advisory fees;
- we collect, maintain and document accurate, complete and relevant client background information, including the client's financial goals, objectives and risk tolerance;
- our firm conducts regular reviews of each client account to verify that all recommendations made to a client are suitable to the client's needs and circumstances;
- we educate our planners regarding the responsibilities of being a fiduciary, including the need for having a reasonable and independent basis for the investment advice provided to clients.

## **Item 11 Code of Ethics, Participation or Interest in Client Transactions and Personal Trading**

Our firm has adopted a Code of Ethics which sets forth high ethical standards of business conduct that we require of our employees, including compliance with applicable federal securities laws.

Pure Financial Advisors, Inc. and our personnel owe a duty of loyalty, fairness and good faith towards our clients, and have an obligation to adhere not only to the specific provisions of the Code of Ethics but to the general principles that guide the Code.

Our Code of Ethics includes policies and procedures for the review of quarterly securities transactions reports as well as initial and annual securities holdings reports that must be submitted by the firm's access persons. Among other things, our Code of Ethics also requires the prior approval of any acquisition of securities in a limited offering (e.g., private placement) or an initial public offering. Our code also provides for oversight, enforcement and recordkeeping provisions.

Pure Financial Advisors, Inc.'s Code of Ethics further includes the firm's policy prohibiting the use of material non-public information. While we do not believe that we have any particular access to non-public information, all employees are reminded that such information may not be used in a personal or professional capacity.

A copy of our Code of Ethics is available to our advisory clients and prospective clients. You may request a copy by email sent to [info@purefinancial.com](mailto:info@purefinancial.com), or by calling us at 619-814-4100.

Pure Financial Advisors, Inc. and individuals associated with our firm are prohibited from engaging in principal transactions or agency cross transactions.

Our Code of Ethics is designed to assure that the personal securities transactions, activities and interests of our employees will not interfere with (i) making decisions in the best interest of advisory clients and (ii) implementing

such decisions while, at the same time, allowing employees to invest for their own accounts.

Our firm and/or individuals associated with our firm may buy or sell for their personal accounts securities identical to or different from those recommended to our clients. In addition, any related person(s) may have an interest or position in a certain security(ies) which may also be recommended to a client.

It is the expressed policy of our firm that no person employed by us may purchase or sell any security prior to a transaction(s) being implemented for an advisory account, thereby preventing such employee(s) from benefiting from transactions placed on behalf of advisory accounts.

We may aggregate our employee trades with client transactions where possible and when compliant with our duty to seek best execution for our clients. In these instances, participating clients will receive an average share price and transaction costs will be shared equally and on a pro-rata basis. In the instances where there is a partial fill of a particular batched order, we will allocate all purchases pro-rata, with each account paying the average price. Our employee accounts will be included in the pro-rata allocation.

As these situations represent actual or potential conflicts of interest to our clients, we have established policies and procedures for implementing our firm's Code of Ethics, to ensure our firm complies with its regulatory obligations and provides our clients and potential clients with full and fair disclosure of such conflicts of interest.

## **Item 12 Brokerage Practices**

Pure Financial Advisors, Inc. utilizes the services of independent third-party custodians to maintain custody of assets managed by the firm.

PURE participates in the institutional advisor program of qualified custodians; TD Ameritrade Institutional ("TD Ameritrade"), National Financial Services LLC ("Fidelity"), and Charles Schwab & Co., Inc. ("Charles Schwab") to maintain custody of clients' assets and to effect trades for their accounts. TD Ameritrade Institutional is a division of TD Ameritrade, Inc. All custodians are members of FINRA/SIPC. PURE is independently owned and operated and not affiliated with any custodian.

Although PURE may recommend a particular qualified custodian, it is the client's decision whether to open an account. If the client chooses to open an account, the account agreement will be opened directly with the custodian of the client's choice. Custodians may charge fees unrelated to PURE's asset management fee. These fees could be brokerage commissions or transaction fees for effecting security transactions. In addition to PURE's asset management fee, clients incur fees for mutual fund management and other fund expenses.

For our client accounts maintained in its custody, qualified custodians do not charge separately for custody services but are compensated by account holders through commissions and other transaction-related or asset-based fees for securities trades that are executed through the custodian or that settle into accounts. Custodian services include the execution of securities transactions, custody, research, and access to mutual funds and other investments that are otherwise generally available only to institutional investors or would require a significantly higher minimum initial investment.

Products and services offered by our custodians that assist us in managing and administering our clients' accounts include software and other technology that:

- provide access to client account data (such as trade confirmations and account statements);
- facilitate trade execution and allocate aggregated trade orders for multiple client accounts;
- provide research, pricing and other market data;

- facilitate payment of our fees from clients' accounts; and
- assist with back-office functions, recordkeeping and client reporting.

Custodians also offer other services intended to help us manage and further develop our business enterprise. These services may include:

- compliance, legal and business consulting;
- publications and conferences on practice management and business succession; and
- access to employee benefits providers, human capital consultants and insurance providers.

PURE does not maintain custody of client assets other than by virtue of being able to debit management fees directly from client accounts.

PURE does not receive fees or commissions from any of these arrangements, although PURE may benefit from electronic delivery of client information, electronic trading platforms and other services provided by custodians for the benefit of clients. PURE may also benefit from other services provided by custodians, such as educational events, practice management advice, and occasional business entertainment of our personnel. Custodians may make available, arrange and/or pay third-party vendors for the types of services rendered. Custodians may discount or waive fees it would otherwise charge for some of these services or pay all or a part of the fees of a third-party providing these services to our firm. These benefits are standard in a relationship with these custodians and are not in return for client recommendations or transactions.

PURE's policies and procedures generally provide that if PURE makes an error while placing a trade for a Client account (whether that error results in a gain or a loss), PURE corrects the error as quickly as possible (which may include moving the trade to an "error account" held by PURE) and bears all costs (if any) of correcting the error.

#### BLOCK TRADING

Pure Financial evaluates trades on a client-by-client basis. On any given day, the number of securities traded that are common across clients will vary greatly. When possible, PURE utilizes software programs to enhance its trading efficiency including the aggregating or blocking of trades in securities across clients. Upon execution, the pricing of such blocked trades is averaged and proportionately allocated among the corresponding client accounts. Given normal trade size and depth of the market for such securities, the Firm's execution of aggregated trades is not expected to have a material impact on pricing.

If the aggregated order is filled in its entirety, it will be allocated among clients in accordance with the Allocation Statement. If the order is partially filled, it will be allocated pro-rata based on the Allocation Statement. Notwithstanding the foregoing, the order may be allocated on a basis different from that specified in the Allocation Statement if all client accounts receive fair and equitable treatment and the reason for different allocation is explained in writing and is approved in writing by advisor's compliance officer no later than one hour after the opening of the markets on the trading day following the day the order was executed.

The Advisor's books and records will separately reflect, for each client account, the orders of which are aggregated, the securities held by, and bought and sold for that account. Funds and securities of clients whose orders are aggregated will be deposited with custodian, and neither the client's cash nor their securities will be held collectively any longer than is necessary to settle the purchase or sale in question on a delivery versus payment basis. Cash or securities held collectively for clients will be delivered out to the custodian as soon as practicable following the settlement. Advisor will receive no additional compensation of any kind as a result of the proposed aggregation.

**Item 13 Review of Accounts**

**INVESTMENT SUPERVISORY SERVICES  
INDIVIDUAL AND MODEL PORTFOLIO MANAGEMENT SERVICE**

REVIEWS: Underlying securities within Model Portfolio Management Services accounts are continually monitored and reviewed at least monthly by the client's financial planner and/or portfolio trading and management. Accounts are reviewed in the context of the investment objectives and guidelines of each model portfolio as well as any investment restrictions provided by the client. More frequent reviews by the client's financial planner may be triggered by material changes in variables such as the client's individual circumstances.

These accounts are reviewed by one or more of the portfolio managers or planners listed below:

Ben Littman, CFP®, MBA	Nathan Nicholas, CFA
Richard Alexander, CFP®, MBA	Joseph Anderson, CFP®, AIF®
Matt Balderston, CFP®, AIF®	Allison Alley, CFP®
Michael Bernier, CFP®, AIF®	Karen Baszak, CFP®, CLU, AIF®
Amy Cattelino, CFP®	Robert Canavan, CFP®
Alan Clopine, CPA, AIF®	David Cook, CFP®, AIF®
Jack Dugan, CFP®, MSBA, AIF®	Jake Greenberg, CFP®, ChFC®
Eric Hamel, CFP®, AEP®, CLU®	Matthew Horsley, CFP®, AIF®
Peter J. Keller, CFP®, AIF®	Robert McCulloch, CFP®, AIF®
Michael Pash, CFP®, MBA, AIF®	Brian Perry, CFP®, CFA®
Nate Ritchison, CFP®, AIF®	Bryan Ross, CFP®, JD, AIF®
Brian Sauter, CFP®, MBA, AIF®	Thomas Vance, CFP®, MBA, AIF®

REPORTS: In addition to the monthly statements and confirmations of transactions that clients receive from the custodian, we provide daily internet access to reports summarizing account performance, balances and holdings. Quarterly performance reports will also remind the client to notify us if there have been changes in the client's financial situation or investment objectives.

**PENSION CONSULTING SERVICES**

REVIEWS: Pure Financial Advisors, Inc. will review the client's Investment Policy Statement (IPS) whenever the client advises us of a change in circumstances regarding the needs of the plan. Pure Financial Advisors, Inc. will also review the investment options of the plan according to the agreed upon time intervals established in the IPS. Such reviews will generally occur quarterly.

These accounts are reviewed by the client's assigned financial planner as listed above.

REPORTS: Pure Financial Advisors, Inc. will provide reports to Pension Consulting Services clients based on the terms set forth in the client's Investment Policy Statement (IPS).

**FINANCIAL PLANNING SERVICES**

REVIEWS: No formal reviews will be conducted for completed limited engagement agreements. Financial plans that are implemented and monitored by PURE under a continuous engagement agreement are reviewed by the client's assigned financial planner. The financial planner will review the total plan annually through a series of meetings throughout the year. In addition, other advisors listed below may review plans as part of plan

supervision. Financial plans are reviewed by one or more of the following professionals:

Alan Clopine, CPA, AIF®	Joseph Anderson, CFP®, AIF®
Richard Alexander, CFP®, MBA	Allison Alley, CFP®
Matt Balderston, CFP®, AIF®	Karen Baszak, CFP®, CLU, AIF®
Michael Bernier, CFP®, AIF®	Robert Canavan, CFP®
Amy Cattelino, CFP®	David Cook, CFP®, AIF®
Jack Dugan, CFP®, MSBA, AIF®	Jake Greenberg, CFP®, ChFC®
Eric Hamel, CFP®, AEP®, CLU®	Matthew Horsley, CFP®, AIF®
Peter J. Keller, CFP®, AIF®	Robert McCulloch, CFP®, AIF®
Michael Pash, CFP®, MBA, AIF®	Brian Perry, CFP®, CFA®
Nate Ritchison, CFP®, AIF®	Bryan Ross, CFP®, JD, AIF®
Brian Sauter, CFP®, MBA, AIF®	Thomas Vance, CFP®, MBA, AIF®

REPORTS: Foundation Financial Plans that are under a continuous monitoring agreement have multiple reports available through an encrypted client website. Limited engagement Financial Planning clients or Foundation Plan clients who do not implement through PURE will receive a completed financial plan or report documenting the planning engagement results. Additional reports will not typically be provided unless otherwise contracted for.

#### **Item 14 Client Referrals and Other Compensation**

Referrals from independent solicitors:

Our firm may pay referral fees to independent persons or firms ("Solicitors") for introducing clients to us. Whenever we pay a referral fee, we require the Solicitor to provide the prospective client with a copy of this document (our *Firm Brochure*) and a separate disclosure statement that includes the following information:

- the Solicitor's name and relationship with our firm;
- the fact that the Solicitor is being paid a referral fee;
- the amount of the fee; and
- whether the fee paid to us by the client will be increased above our normal fees in order to compensate the Solicitor.

As a matter of firm practice, the advisory fees paid to us by clients referred by solicitors are not increased as a result of any referral relationship.

It is PURE's policy not to accept or allow our related persons to accept any form of compensation, including cash, sales awards or other prizes, from a non-client in conjunction with the advisory services we provide to our clients.

PURE participates in the institutional advisor program (the "Program") offered by TD Ameritrade Institutional. TD Ameritrade Institutional is a division of TD Ameritrade Inc., member FINRA/SIPC ("TD Ameritrade"), an unaffiliated SEC-registered broker-dealer and FINRA member. TD Ameritrade has established AdvisorDirect Program as a means of referring its brokerage customers and other investors seeking fee-based personal investment management services or financial planning services to independent investment advisors. TD Ameritrade offers to independent investment advisors services which include custody of securities, trade execution, clearance and settlement of transactions. Advisor receives some benefits from TD Ameritrade through its participation in the Program. TD Ameritrade does not supervise PURE and has no responsibility for PURE's management of client

portfolios or PURE's other advice or services. There is no direct link between Advisor's participation in the program and the investment advice it gives to its Clients, although Advisor receives economic benefits through its participation in the program that are typically not available to TD Ameritrade retail investors. The benefits received by PURE through participation in the program do not depend on the amount of brokerage transactions directed to TD Ameritrade. As part of its fiduciary duties to clients, PURE endeavors at all time to put the interests of its clients first. Clients should be aware, however, that the receipt of economic benefits by PURE in and of itself creates a potential conflict of interest and may indirectly influence PURE's choice of TD Ameritrade for custody and brokerage services. PURE pays TD Ameritrade an on-going fee for each successful client referral. This fee is usually a percentage (not to exceed 25%) of the advisory fee that the client pays to PURE ("Solicitation Fee"). PURE will also pay TD Ameritrade the Solicitation Fee on any advisory fees received by Advisor from any of a referred client's family members, including a spouse, child or any other immediate family member who resides with the referred client and retained PURE on the recommendation of such referred client. PURE will not charge clients referred through AdvisorDirect any fees or costs higher than its standard fee schedule offered to its clients or otherwise pass Solicitation Fees paid to TD Ameritrade to its clients. For information regarding additional or other fees paid directly or indirectly to TD Ameritrade, please refer to the TD Ameritrade AdvisorDirect Disclosure and Acknowledgement Form. In addition, PURE has agreed not to solicit clients referred to it through AdvisorDirect to transfer their accounts from TD Ameritrade or to establish brokerage or custody accounts at other custodians, except when its fiduciary duties require doing so. PURE's participation in AdvisorDirect does not diminish its duty to seek best execution of trades for client accounts.

## **Item 15 Custody**

We previously disclosed in the "Fees and Compensation" section (Item 5) of this Brochure that our firm directly debits advisory fees from client accounts.

As part of this billing process, the client's custodian is advised of the amount of the fee to be deducted from that client's account. On at least a quarterly basis, the custodian is required to send to the client a statement showing all transactions within the account during the reporting period.

Because the custodian does not calculate the amount of the fee to be deducted, it is important for clients to carefully review their custodial statements to verify the accuracy of the calculation, among other things. Clients should contact us directly if they believe that there may be an error in their statement.

In addition to the periodic statements that clients receive directly from their custodians, we also send account value and performance statements with our billing summary on a quarterly basis. We urge our clients to carefully compare the information provided on these statements to ensure that all account transactions, holdings and values are correct and current.

Our firm does not have actual or constructive custody of client accounts.

## **Item 16 Investment Discretion**

Clients may engage us to provide discretionary asset management services, in which case we place trades in a client's account without contacting the client prior to each trade to obtain the client's permission.

Our discretionary authority includes the ability to do the following without contacting the client:

- Determine the security to buy or sell; and/or
- Determine the amount of the security to buy or sell

Clients give us discretionary authority when they sign a discretionary agreement with our firm, and may limit this

authority by giving us written instructions. Clients may also change/amend such limitations by once again providing us with written instructions.

#### **Item 17 Voting Client Securities**

As a matter of firm policy, we do not vote proxies on behalf of clients. Therefore, although our firm may provide investment advisory services relative to client investment assets, clients maintain exclusive responsibility for: (1) directing the manner in which proxies solicited by issuers of securities beneficially owned by the client shall be voted, and (2) making all elections relative to any mergers, acquisitions, tender offers, bankruptcy proceedings or other type events pertaining to the client's investment assets. Clients are responsible for instructing each custodian of the assets, to forward to the client copies of all proxies and shareholder communications relating to the client's investment assets. Clients are encouraged to read through the information provided with the proxy-voting documents and make a determination based on the information provided. Although we do not vote proxies, if a client has a question about a particular proxy, they can contact us. However, the client has the ultimate responsibility for making all proxy-voting decisions. We will not be deemed to have proxy voting authority solely as a result of providing advice or information about a particular vote to a client.

#### **Item 18 Financial Information**

Pure Financial Advisors, Inc. has no additional financial circumstances to report.

Under no circumstances do we require or solicit payment of fees in excess of \$1,200.00 per client more than six months in advance of services rendered. Therefore, we are not required to include a financial statement.

Pure Financial Advisors, Inc. has not been the subject of a bankruptcy petition at any time during the past ten years.
